Category G - Azur Cotonneux Faux Fur

Legs color

-  Black stained ashwood
-  Natural ashwood
-  Brown stained ashwood
-  Painted in any RAL color

The concept behind the "Archipen" chair, celebrates movement and dynamism through its distinctive design. With its minimalist aesthetic, characterised by clean lines and flat legs twisted in various directions, the chair references the kinetic work of world-famous Ukrainian avant-garde sculptor and artist Olexander Archipenko. The Archipen chair is meticulously crafted with attention to detail, involving careful manual work. Its frame is made of solid ashwood, ensuring durability, while the seat and backrest are made of plywood, available with a natural or stained finish. This chair is designed for supreme comfort with its ergonomic design, comfortable seat, and supportive backrest. Due to its sturdy construction, the Archipen chair can withstand daily use in commercial environments. It is ideal for adding style to a residential or commercial interior.
