

CALATHEA

Tra artigianalità delle lavorazioni e naturalità delle linee ispirate al mondo vegetale, nasce una formella sinuosa e dinamica: una foglia con nervature in rilievo, il cui tenue chiaroscuro è accentuato dal tono su tono cromatico generato dal naturale disporsi dello smalto sulla superficie. Calathea compone fondali caratterizzati da vivide suggestioni tattili e visive, foliage stilizzati ad arte per evocare atmosfere sofisticate e preziose, secondo un'idea di interior design che coniuga funzionalità e culto dell'estetica.

The craftsmanship of the production processes and the natural character of the lines inspired by the plant world combine to produce a sinuous, dynamic tile: a leaf with ribs in relief, whose soft chiaroscuro is accentuated by the tone-on-tone colouring generated by the natural disposition of the glaze on the surface. Calathea composes backdrops characterised by vivid tactile and visual suggestions, artfully stylised foliage to produce sophisticated, precious atmospheres according to an idea of interior design that combines functionality and a passion for beauty.

Le savoir-faire artisanal et le naturel des lignes inspirées du monde végétal donnent naissance à un carreau sinueux et empreint de dynamisme : une feuille avec des nervures en relief, dont le délicat clair-obscur est accentué par la coloration ton sur ton créée par la disposition naturelle de l'émail sur la surface. Calathea compose des toiles de fond caractérisées par de vives suggestions tactiles et visuelles, des feuillages habilement stylisés pour évoquer des atmosphères sophistiquées et précieuses, selon une idée de la décoration d'intérieur qui allie fonctionnalité et culte de l'esthétique.

Aus der Handwerkskunst der Verarbeitung und der Natürlichkeit der von der Pflanzenwelt inspirierten Linien entsteht eine geschwungene und dynamische Fliese: ein Blatt mit erhabenen Rippen, dessen sanfter Hell-Dunkel-Effekt durch die Ton-in-Ton-Farbe, die durch den natürlichen Verlauf der Emaille auf der Oberfläche erzeugt wird. Calathea schafft Szenografien, die sich durch lebendige taktile und optische Anregungen sowie kunstvoll stilisiertes Blattwerk auszeichnen, um anspruchsvolle und kostbare Umgebungen zu schaffen, gemäß einer Innenarchitekturidee, die Funktionalität und den Kult der Ästhetik vereint.
