- Painted in any RAL color

NOOM furniture collection is dedicated to the 100th anniversary of the founding of the Bauhaus School in Germany. Ideas of functionalism and conciseness, the combination of craft and art, buildings and objects formed by a composition of simple geometric shapes, are still relevant. Collection is a tribute to the great thinkers who formed modernist principles and brought them to life.

Gropius Chair gathered of simple geometric shapes and will always look like a small art object in your house.
